

Northwest Regional Burn Model System

April 2019

American Burn Association Awards

Beth Costa and Nicole Gibran

Beth Costa received the Barbara Knothe Burn Therapist Achievement Award which commemorates the spirit and commitment of Barbara Knothe, MOT, OTR/L, CHT, who dedicated over 20 years of service to burn rehabilitation. She was an invaluable clinical instructor, mentor, teacher and clinician. This award is dedicated in her memory to active burn therapists that embody the same drive and commitment. This memorial award serves as an active foundation and inspiration for physical and occupational therapists to be both clinical and research-based in their daily practices and to serve as a resource for developing burn therapists to achieve their fullest potential.

Dr. Nicole Gibran received the American Burn Association President's Leadership Award which is awarded for distinguished and exceptional service to the American Burn Association and to the profession of burn care. It is awarded on a periodic basis to acknowledge such leadership qualities as: vision, dedication, courage, and steadfastness in the service of the ABA, burn care professionals and burn-injured patients.

Congratulations

Beth and Dr. Gibran!

Camp Eyabsut, is a positive summer camp experience that benefits burn-injured youth. A place where children, ages 5 to 17, can come together to laugh, grow and encourage each other while building lifelong friendships!

Camp provides an opportunity for campers to share their experiences with others and gives them a sense of being a part of a supportive family and community!

Camp Eyabsut
July 14 - 20, 2019

2019 ABA MEETING, LAS VEGAS

Barclay Stewart, MD, MscPH and Yasaman Kazerooni, MD receiving the Peter Brigham Epidemiology Paper Award from ABA President, Dr. Steven Wolf at the 51st Annual ABA meeting. Title of their paper: A Comprehensive Legislative Framework to Address Chemical Assault.

Burn Model System and Tableau

The team at NWRBMS is working with the Burn Model System National Data and Statistical Center to develop interactive data visualizations using Tableau software. Users will eventually be able to explore and query the BMS data sets online.

Prevention of Household Chemical Burns

Prevent chemical burns by wearing gloves and other protective clothing when you handle chemicals
Store chemicals, including gasoline, out of the reach of children

Visit us online and social media

The NWRBMS maintains an active social media presence on both Facebook and Twitter. To follow/join us on Facebook, search "Northwest Regional Burn Model System". From Twitter, search "@NWRBMS" or go to <https://twitter.com/nwrpbms>.
